

Your source for instrumentation & control solutions since 1986

Tel: 407.324.7800 Fax: 407.324.1104

Valves, Actuators & Controls

Control valves globe, angle, ball, rotary

Electric actuators: multi-turn, part-turn gearboxes; multi-turn, part-turn, bevel, spur Linear actuators, integrated remote controls

Control valves cryogenic, high pressure, bellows

Worcester Controls
Ball valves, actuation solutions, linear control valves, custom engineered valves, hygienic valves

Thermoplastic valves and actuators, corrosion resistant fluid handling products

Pressure regulators, volume boosters transducers - I/P, E/P, P/I

Isolation rings, pressure sensors, expansion joints pinch valves - automatic & manual duckbill & wafer valves

Instrumentation: Flow, Level, Pressure, Analytical, Temperature & Calibration

Automatic samplers - refrigerated, portable flowmeters - open channel, LASER, AV, bubbler flowlink - data analysis software & hosting

Alarm autodials & voice annunciators wireless data communication on systems

Flow: Coriolis, electromagnetic
Level: Guided wave radar pressure & temperature transmitters

Ultrasonic flow meters, process analyzers, flare flow meters

Thermal mass flow meters, flow switches, mass flow controllers, mechanical & electronic level switches and transmitters

Magnetic level indicators, mechanical & electronic switches, electronic and mechanical level transmitters

Quality backflow test kits, yearly calibration services, repairs

Insertion & plastic magmeters, Insertion paddle meters turbine flow meters, environmental monitoring

Flumes, weir boxes, metering manholes buildings, instrument enclosures

MTL products: Solutions for intrinsic safety, fieldbus, signal conditioning, surge protection and HMI

Fluid sensors and diagnostic systems, position sensors, AS-I interface

Heat tracing: products & design turnkey installation

Pressure, temperature, process & pump systems

Air Drying

Pressure calibrators and controllers, temperature, thermometer, digital pressure gauges

Dehumidification systems, compression air systems, service for air treatment solutions

Dehumidification systems

Your source for instrumentation & control solutions since 1986

Tel: 407.324.7800 Fax: 407.324.1104

Custom Hose Assemblies for All Applications

Single and two ferrule fittings, hygienic fittings, tubing & hose assemblies, quick couplings, PTFE/PFA, valves

Pipe, tube & hose supports, test fittings, & valves, hydraulic filter systems & components, hydraulic filter carts

Tubing supports, strut, instrument stands, tubing tray, clamps, & condensate pots

Custom Panels & SS Enclosures

Pressure & Temperature

Pressure gauges & diaphragm seals pressure & temperature switches pressure transducers, temperature indicators

Control valves: globe style, rotary and all-PTFE; **Regulators:** Self-contained and pilot-operated pressure reducing and back pressure relief

Quality backflow test kits, yearly calibration services, repairs

PERMA-CAL Direct drive process & test gauges

Precision regulators: Industrial & high

RTD's, thermocouples & thermowells, instrument wire and cable

Differential pressure, flow & level

Programmable panel meters and controllers, loop powered, temperature control, flow rate and totalizers

Smart transmitters for process temperature, gauge pressure, absolute pressure, vacuum, differential pressure, DP flow & tank level

Pressure, temperature and flow sensors & switches

Quality vacuum instrument and gas mass flow instruments

Instrument calibration & startup instrument service & repair
